INTERNET APPLIANCE

ADVANTAGE COMPUTER ENTERPRISES

EZ Box

The EZ Box internet appliance can be your efficient, easy and virtually virus free portal to access the internet, email, music and more!

The EZ Box - Internet Appliance is your efficient, easy and virus free portal to access the internet, email and more!

The EZ Box interface is “easy” to navigate with large and simple to recognize icons. USB ports, keyboard and mouse are included, optical drives and wireless capability are sold separately.

 Internet - Browse the internet in a user-friendly, safe, Linux environment. Operating system is not a Microsoft Windows product.

 Reduced Virus Threat - Since most viruses are primarily created to attack Window based programs you have a secure, virtually virus - free internet experience.

 Email and Documents - EZ Box includes OpenOffice, which has word processing, drawing, spreadsheet programs and more, to meet your document creation needs.

 Games - Pre-installed games. More game selections available for download.

 Pictures - Simple photo editing functions, advanced graphics editor not included.

 Video - View video through the internet web browser.

 Music - Listen to and manage music. Software recognizes various mp3 players, allowing user to upload files to player and manage playlists. Internet radio also included.
